

How to....: The OLC Login

General:

The OLC login is a new function introduced with OLC2.0. Logging into the OLC system provides the following advantages:

- Access to „MyOLC“ and thus direct selection of the personal logbook und a list of all flights of one’s own club

coming soon

Further functions will be added to “MyOLC” soon.

- Direct access to personal competitor data without additional identification
- Automatic takeover of personal competitor data into the direct flight claiming form (see also HowTo “Direct flight claiming”)
- Administering of both personal flights and flights for other pilots as authorized “Trusted Competitor” (see HowTo “Trusted Competitor”)
- Download of competitors’ flights and GoggleEarth files without entering the so called „Captcha“ (= barrier against mass download)

How does it work?

1. Register as competitor or update competitor data

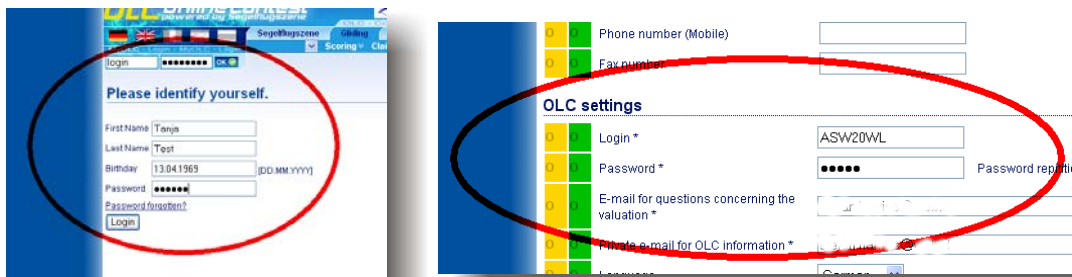

Select tabs „Gliding“ or „ParaGliding“ depending on which competition you wish to participate in.

Next select „Contest Registration“ or „Contest Registration update“.

2. Defining the personal „Login“ (once)

In the following example is assumed that you already are a registered competitor and that you already selected “Contest Registration update”. The competitor form opens after identification.

You can enter an individual login below the paragraph „OLC settings“.

3. Logging in

After entering the login into the personal competitor data once, you now can login into the OLC at any time und make use of the new and exclusive functions:
